CAPABILITY ENHANCEMENT AND STUDENT SKILL DEVELOPMENT

Soft skill, language and communication skill development

Soft skills like communication, work ethic, leadership, personal responsibility, and listening are all important for students who are about to enter the working world.

Students of today are the future employers and employees of profitable global businesses.

Appropriate soft skills play an important role in a successful career as well as during social interactions in the society. These skills are also highly sought after by employers recruiting fresh graduates.

For students to stand out as promising assets to multinational organizations, they need to invest in the sharpening of soft skills.

These abilities which are linked to personality traits are a host of interpersonal capabilities that will help the present day students to transform into outstanding corporate resources.

Human value development

Human values constitute an important aspect of self-concept and serve as guiding principles for an individual. Human values are the virtue that guide us to take into account the human element when one interacts with other human beings. They are the main positive depositions that create the bond of humanity between people and thus have value for all of us has a human beings. They are our strong positive feelings for the human essence of the other. Human values are the foundation for any viable life within society and they build space for a drive, a movement towards one another, which leads to peace.

We have conducted seminars, and discourses by Brahma kumaries on human value development.

Employability skill development

The Employability Skills Development course takes an activity-based approach to raising student awareness about employer expectations and the working environment. Developed in response to an increasing focus on work-related learning, it will meet the needs of providers looking for a programme of activities to support learners in preparation for training, for achieving an employability qualification, or for getting a job.

The Employability Skills Development resources support teaching and learning; they aim to improve learners' knowledge and understanding of the workplace.
