1. Introduction

- 1.1. The guidelines described in this document have been established so that these can be prepared in a form suitable for library cataloging. The document takes its place in the library as a product of original thinking and research, and it is, therefore, designed to appear in a form comparable to published works.
- 1.2. This document covers the general rules of quality, format and appearance. Students should consult their Project Supervisor for specific content requirements.
- 1.3. It is the student's responsibility to read and follow the requirements presented here. The final copies will not be accepted if they do not fulfill the criteria described below.

2. Originality

M.Pharm. Thesis shall

- 2.1. Consist of the student's own account of his/her investigations;
- 2.2. Be either a record of original work or of an ordered and critical exposition of existing knowledge and shall provide evidence that the field has been surveyed thoroughly;
- 2.3. Be an integrated whole and present a coherent argument;
- 2.4. Give a critical assessment of the relevant literature, describe the method of research and its findings and include a discussion on those findings; and
- 2.5. Include a full bibliography and references.
- 2.6. Check originality of thesis with help of Paid anti-plagiarism database "Turnitin"
(www.turnitin.com)

3. Components

A thesis should contain the following parts in the order shown:

- 3.1. Title page (please see sample, Annexure I), containing:
 - the thesis title;
